

Students,

Are you interested in an educational experience outside the classroom where you can earn credit and get paid?

The Tennessee Legislative Internship Program is a great way to get real-world work experience while becoming fully immersed in the legislative process. This opportunity is open to college students attending a Tennessee college or university. If you are a junior or senior with a minimum 3.0 GPA, you are eligible to apply for the program. While this program typically appeals to political science, pre-law, and history majors, it is open to most programs of study. Any student who is interested in policy and the law making process can certainly benefit from this opportunity. In addition, interns meet weekly to hear from leaders from across state government, increase networking, and begin career planning.

The Tennessee Legislative Internship Program is only offered during the spring semester to coincide with Tennessee's Legislative session. Details include:
